Road marking machine – GRACO LineLazer 130HS

| | |
|------------------------|--|
| Machine type: | GRACO LineLazer 2C 130 HS |
| Serial No.: | |
| Date of manufacturing: | 2014/ September |
| Working hours: | approx. 80 hours engine |
| Color: | blue |
| System: | 2-component coldsprayplastics AIRLESS in mixing ratio 1:1 (High-pressure system) and coldpaint Airless pump systems |
| Chassis: | Original GRACO 3 wheel chassis; front wheel with fast Track |
| engine: | Honda GX340 with electric start box |
| compressor: | yes, for pneumatic opening/closing of spraying gun |
| paint pump system: | 2x GRACO Airless paint pumps with each of 4,7 Liters/minute pump performance, each pump hydraulic driven (one pump for component A, one pump for component B) 2x separate hydraulic systems |
| cleaning system: | 1x Speedflo (TITAN) Airless pump for separate flushing of the system and with solvent container |
| material container: | 2x storage appliances for original containers (component A+B) |
| automatic/electronic: | LCD screen showing each pump pressure |
| application system: | 2x separate circuits each for A + B component 1x 2-component Airless spray guns 1x 2-component hand-spray gun |
| miscellaneous: | Marking unit with spraying gun can be mounted to front or back wheel |
| application: | Small hand-guided and manoeuvrable marking machine for small jobs in cities, parkings, industrial zones as well as for handspray applications with stenils with 2-component coldsprayplastic (1:1 system) or paint applications Airless. |
| condition: | New, low working hours, 100% working condition |

PRICE: EUR 14.250,00 net ex Works Germany
